

Outputs

Outputs will generally include: - GPS coordinates mapped on Google maps, summary tables and charts (i.e. pie, histograms, bar, line). Sample outputs for WAOs are shown in the Table below just to guide you; similar outputs are expected for each other stakeholder.

WAO

Output data	Type of Output						
Summary Table	Farmer Sample data						
		Season 1					Same for Season 2
		Total No of farmers	No. of farmers sampled	No of farmers that used inputs correctly	No of farmers that have adopted GAPs	No of farmers that have adopted post-harvest management technologies	
	Name Farmer group						
	Extension & field visit data						
		No. of people seeking/ offered advisory services		No of field visits conducted		No of farmers visited during field visits	
	Season 1						
	Season 2						

	Trainings					
	Date of Training	Venue	Trainer	Topic of Training	No of farmers attending	
					Male	Female
	1/1/1999					
	3/4/2016 etc.					
Bar Chart	Selling price of produce X-axis: Season Y-Axis: Selling price (KSh/bag)					
Pie-Chart	No of farmers sampled by gender No of farmers sampled by age					
Line graph	Markets data X-Axis: Date of Sampling Y-Axis: Selling price (KSh/bag)					
Google map	GPS coordinates of each collection centre mapped on Google maps
